

***Electronics Recycling Drive
Saturday, January 14th 2012
9:00 am – 1:00 pm
Bay Beach Wildlife Sanctuary***

Out with the Old, In with the New!

**Wondering what to do with that old computer, fax, printer,
TV, other electronics or household appliance?**

Friends of the Wildlife Sanctuary & Norse Computer Recyclers are holding an **Electronics Recycling Drive at the Bay Beach Wildlife Sanctuary on Saturday, January 14th, 2012 from 9:00 am to 1:00pm.** Norse Computer Recyclers LLC provides an environmentally responsible solution to electronics disposal needs.

Drop off old TVs, computer equipment (monitors, CPUs, mice, keyboards, fax, printers, network equipment & any standard office equipment), household electronics such as CD, DVD, & VHS players, stereo equipment, vacuums, clocks, Satellite receivers, phone systems, cell phones, game consoles, household appliances like microwaves, washers, dryers, refrigerators, dehumidifiers & stoves. We also recycle Lead acid, Nickel Cadmium and Lithium Ion batteries. Basically if it plugs into a wall, we can recycle it. **However, they do not accept dry cell batteries, or florescent light bulbs.**

Computer monitors, televisions and appliances containing freon are subject to a \$10.00 recycling fee per unit. All other standard computer components and household appliances are recycled at no charge. You can also bring your aluminum cans to contribute to the drive.

The drop off area will be in the lower parking lot of the Nature Center at the Wildlife Sanctuary.
A portion of the recycling fees will go to support the Friends of the Wildlife Sanctuary.

Thank you for helping the environment and supporting the Friends of the Wildlife Sanctuary ☺
