**Checks should be made payable to: Wildlife Sanctuary**

Please call **(920) 391-3671** to schedule a program or for more information.

Monday—Friday 8:00—12:00 and 1:00—4:30

**Please call if you must cancel.**

## Explore the Sanctuary on Your Own!

Bay Beach Wildlife Sanctuary is a 700-acre urban wildlife refuge. It is open to the public year-round free of charge.

The **Nature Center** offers educational hands on exhibits. Everyone (kids AND adults) can touch and see things like tracks, skulls, and pelts of various animals. You can see live critters like Giant Hissing cockroaches and lizards!

The **Woodland Building** offers visitors an opportunity to see some of Wisconsin's mammals up close!

The **Observation Building** and **Resch Conservation Wing** offers visitors a chance to see songbirds and other rehabilitation animals, along with the outdoor Bird of Prey trail.

Corn is available for purchase (\$1.00 per bag) to feed the geese and ducks at the Observation Building.

Our exhibit and program animals are non-releasable. Most of them were injured or orphaned in the wild and were admitted through our rehabilitation program.

**Self-guided master worksheets are available for groups to make copies on advance request.**

## Environmental Programs At The Sanctuary

Hands-on Learning  
Adventures!

[www.baybeachwildlife.com](http://www.baybeachwildlife.com)

**(920) 391-3671**

### **About The Programs**

Naturalists provide hands-on education programs designed to enhance students' understanding and knowledge of nature. Programs are generally 45-60 minutes in length, depending on age and participation of the group. Programs can be tailored to any age group.

### **Wild Friends - Our most popular program!**

Get an up-close look at **live animals!** Naturalists choose animals based on the age of group. Students may have the opportunity to touch certain animals. A Wild Friends program which focuses on a specific animal group (i.e. reptiles, mammals, etc.) may be requested.

### **Wisconsin Wildlife Tour- Woodland Building**

Explore our live, native Wisconsin wildlife on exhibit at the Sanctuary. Walk and talk with the Naturalist about where the animals came from, why they are here, and how these animals would survive in the wild.

### **Raptor Tour—Bird of Prey Trail**

A walk and talk with the Naturalist along our live Bird of Prey exhibits.

### **Pond Study**

Students strap on waders and grab a net to see what they can find in one of our ponds. Pond Study lasts approximately 60 minutes and is limited to 15 students at a time. Pond Study is available in spring and summer months only.

### **Snowshoeing**

Naturalists will fit each student with snowshoes and lead them out on our refuge trails. Snowshoe Hikes are limited to 15 students at a time and generally last 90 minutes. Available in winter months only and requires a minimum of 6 inches of snow. Please have students dressed for the weather ( i.e., boots, hats, mittens, etc). Groups get to experience an area of the Sanctuary that isn't open to the general public.

### **The World of Bats**

A fun program to introduce students to these fascinating and misunderstood animals and their secretive lives both in Wisconsin and around the world. A live bat may be able to make an appearance!

### **Tracks and Signs**

Students learn how to find and identify animal tracks and signs. Groups will take a walk following a short discussion.

### **Wolves in Wisconsin**

Walk with the Naturalist out to our Wolf Viewing Area. Learn about the myths and realities of these misunderstood animals. Wolf artifacts will be available to touch.

### **Wisconsin Deer**

Walk with a Naturalist out to our Deer Yard and Tower. Learn about the life of this beautiful animal and it's relationship to humans while viewing live deer in the exhibit. Deer artifacts available to touch.

### **Create Your Own Adventure**

Our staff will develop a program based on a particular nature-related topic of your choice.

### **Einstein Kit Follow-up Field Trip**

The Sanctuary offers a fun 90 minute program based on the Einstein Project Kit "Life Cycle of the Butterfly" or "Animal Studies". A great way to reinforce and review what your class has learned! Teachers, reserve your field trip date early!

### **Safari Hikes**

A walk and talk with a Naturalist. Safari hike themes include birds, trees, insects and others. Seasonal, depending on topic.
