

“WHONEW”

Wildlife Habitat of Northeast Wisconsin

Would you like to be a part of a groundbreaking new project in Green Bay?

Would you like to help restore some balance in our wildlife partners?

Would you like to help eliminate rodents that spread disease and contamination?

If you said “YES” to any of the above questions, come join us in the ‘WHONEW’ project!

WHONEW (Wildlife Habitat of Northeast Wisconsin) is working on establishing new breeding boxes and nesting platforms for birds of prey. Our hope is to entice more of these birds back into the area to help re-establish their numbers and to eradicate some of the vermin that have increased in our residential areas.

How can you help?

- 👉 Become a sponsor of a nesting site or box
 - 👉 Adopt a nesting site or box
- 👉 Be willing to join the groups that will be monitoring these areas
 - 👉 Help in placing new boxes as the numbers grow
 - 👉 Other areas as program expands

If you think this is something that you would like to get involved with, please contact Lori Bankson at the Wildlife Sanctuary at (920) 391-3683 or Sharon Hensen, Animal Control Officer, at (920) 448-3266. Get involved by April 30, 2012 for the 2012 Nesting Season!
