A message from Jim Skaleski, Birdseed Chair

This will be my final Birdseed Sale as Chairperson. After 30 years it is time for a change. I would like to thank all of the volunteers who have helped me through the years; the Wildlife Sanctuary staff, the folks who have helped with the printing, mailing, and posting of the brochures, and all the people that have helped with loading and unloading seed into people's cars, the Seed Store, Tri-State Feed and Scenic Valley where the seed has come from through the years. You were all great to work with. It has been an enjoyable 30 years and I loved listening to all of the people tell me about all of the different birds that they see at their feeders and how much they enjoy supporting the Wildlife Sanctuary!

I thank you, the birds thank you and the squirrels really thank you!

Jim Skaleski

Basic Mix:

This is our specially mixed recipe. Birds love it because it contains none of the fillers that make up 30% of commercially packaged wild mixes. Ours contains corn, white millet and sunflower.

Cracked Corn:

Cracked corn is preferred by more kinds of birds than any other type of seed.

Niger (thistle):

This tiny but precious seed does not promote weed growth in the yard. It is the favorite food of finches.

Black Sunflower:

We offer the black oil sunflower, the traditional favorite of the cardinal, grosbeak and chickadee.

Safflower:

Selective delicacy for cardinal, purple finch and grosbeak.

Sunflower Hearts (fine):

Sunflower seed without the shells! Hearts are a bit more expensive, but they leave no messy shells in your yard.

Mixed Seed Block:

A 20 pound block of mixed seed that is great to put out for the winter. Don't worry about going out in the snow and cold to fill a feeder!

Please remember to clean your feeder often and get rid of old, moldy seed!
